Keynote Speaker: Mark Tidsworth, Founder and President, Pinnacle Leadership Associates

Sometimes mental paradigms and cognitive understanding of what's happening lags on-the-ground experience. We postmodern Christ-followers realize that something has changed. Our experience tells us so. Our intuition and feelings tell us so. Yet our understanding of what's happening in congregations, and to congregations, often is the last to learn.

The purpose of Shift is to help our understanding catch up with our experience. We need input, insights, information, and examples to make sense of the changes around us. Shift provides this kind of learning for clergy, church staff, and lay persons.

How are 21st Century Christ-followers in congregations responding to the Shifts around us? We observe a variety of responses, some more optimistic, proactive, Christ-focused, and healthy than others. Shift describes three major movements congregations are making which lead to life and missional progress.

Mark will review some of the shifts around us, and help us determine ways that women's ministry might respond to those shifts.
